2005 Acura TSX engine noise

i have the same problem and it started around 70-80K, and i have always used mobil 1 10w-30. the clicking noise happens under heavy acceleration or acceleration on a climb. it sounded to me like the engine was knocking. i have also notice that right after an oil change, the noise is not there but about 500-1000 miles after an oil change the sound would come back. i have since switched to ...

Engine ticking noise. Valve lifter? | Acura World

1 Answer. My 2005 Acura TL has a noise on the front passenger side. It happens when you start up from a stop, and it sounds like a slight popping noise or rubbing noise. It does not make the noise in the morning when cold outside, but does in the afternoon when warmed up. I have had it to the dealer and the first time they said they could not hear the noise to determine the cause, I took the service consultant on a ride and within one block we heard the noise.

SOLVED: My 2005 Acura TL has a noise on the front - Fixya

Had a TL just like that come into the shop the other day with a similar noise, ended up being the spark plug, some how it was causing a weird noise in one cylinder in the back. I'd pull the plugs and just check. Then try and see if it goes away, you also need to figure out if the sound is coming from the bottom end or the top by the valves.
