~~Auto Genius~~

A couple of people here know that I bought a lovely 3.0TDI A4 2005 recently. It's so far been a great car. No known issues so i'm actually happy with my car for a change.

However... If I

Download Free 2008 Audi A3

try and drive around with my seat belt off (I ALWAYS wear a seat belt when driving..) in instances like being in a car park and wanting the freedom to reverse without the belt, the alarm clangs on and on. Okay.
