FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

This is the story of a Grand Prix formula that no British constructor wanted but which became one that they would almost totally dominate. It has remained largely overlooked due to the perception that the cars were underpowered and hence unspectacular. Such a perception ignores the significant technical developments that took place that are now taken for granted, such as monocoque chassis construction. It saw the career of Stirling Moss come to a premature end, but in his absence the rise to prominence of a new breed of British drivers in Jim Clark, Graham Hill and John Surtees. Over 200 photos and contemporary technical material outline the engineering achievements as well as the exploits of the constructors. With a foreword by Raymond Baxter.
