program ? And much more!

This book is the resource manual on coaching and running the 63 defense. It is based on fundamental football stressing tackling, pursuit, and turnover creation. It uses a team concept that gets all eleven players involved in playing team defense. It uses pressure concepts that place a great deal of stress on the backfield and forces them into a game of reacting to your defense while playing inverted cover 2 behind the pressure front to better support run while playing sound pass coverage support. The main goal of this defense is not not allow the big play to happen since the vast majority of youth teams live and die by the sweep and the vertical pass the defense is geared to stop these two plays while still being sound on the interior. The book is simply written with very little "coach talk" yet gives you a thorough understanding of the techniques, schemes, and principles that make this defense sound and fun. "Coach Gregory's defense is one of the most aggressive yet structurely sound defenses I have used. I love it! I love how easy it was to install! I love how easy it was to coach! I can't wait to get my second season under my belt with this defense!" Chad Herring Head Midget Coach - Kentucky 11-0 and first Championship appearance "Jack's 63 is so simple to coach and the kids love it. I was very skeptical when I first heard how the scheme ran but after talking to him online and over the phone about how he runs this defense I installed it and had nothing but success. I recommend this defense to any youth coach interested in having a successful defense!" Mark Aherns Head Junior Bantaam Coach - Arkansas 9-1 and League JB Champion "This defense served us well. I love the spill and kill I love the spill and kill lots of pressure on the backfield." Bonescoach South Texas www.dumcoach.com member "I ran it for the first time last year and probably botched a few things up a bit.

All football coaches, rookies and veterans alike, will gain valuable insight from Another 101 Youth Football Plays. If you are looking to improve your offense or just looking for a place to start, Chris Booth's new book is the resource you need. The 101 plays included in this book are broken down into chapters including: plays effective against a 4-3 defense, plays effective against a 4-4 defense, plays effective against a 5-2 defense, plays effective against a 6-2 defense, and plays effective inside the opponent's 10-yard line.

Split-field coverages are nothing new. Many coaches around the country run them at all levels of play, but there are not many resources on how to teach them. In Cody Alexander's third book, he breaks down how to teach the many varieties of Quarters coverage. From simple match-Quarters to defending Empty and Quads formations, Coach Alexander breaks it down and simplifies the concepts for any coach. Xs and Os are great, but the players must still execute and the coach must know when to use each scheme. Match Quarters: A Modern Guidebook to Split-Field Coverages, allows anyone interested in football to have a deeper understanding of the game itself and why each coverage is used. Along with the basics, Coach Alexander gives you multiple tags and variations within each family (Cover 4 and Cover 2). Come learn the Art of X.

do well, it shows what often goes wrong and how to fix it. These are many situations I have found happen in top level games. How many of these problems do YOU experience with your team? Many of the defensive problems as you will see can EASILY be fixed just with good 1 on 1 or unit pressing. Also defensive tactical positioning is covered; as is improvements in our attacking play. A major improvement is needed though in COMMUNICATION at youth level to help fix all errors in most cases. Contents: 1) Attacking Shape is often WAY TOO narrow 2) We lose the ball with a bad pass where we get countered quickly and caught flat 3) NOT Sliding across and changing who you mark 4) Defensive positioning to fix in defensive team shape 5) Not pressing the opponents striker all the way 6) Not pressing the ball when it is cleared out of the penalty box 7) Poor positioning in and around the 6 yard box from Crosses 8) Positioning at the back when losing the ball 9) Wide players do not recover leaving a 2 v 1 against our fullbacks 10) We defend too deep from free kicks 11) Not closing the wide player down 12) Allowing opponent midfield players to receive and turn 13) Do we drop or press up from the back? 14) Dropping then Pressing 15) They move the ball forward and keep possession; we have to press and also recover at the same time 16) We don't press together as a unit in the Attacking Third 17) Changing shape to counter the opponents who are playing a 4-3-3 18) Not using Spatial Awareness correctly "off the ball" 19) Players need to move BOTH for themselves and for teammates also. 20) How to Regain possession in the attacking third? 21) Condensing and recovery runs by the defending team on losing possession 22) Attacking Play and rotations and movements of players 23) How to create third man runs in the attacking third
