The American Classical
League > A Natural History
Of Latin

The Natural History (Latin: Naturalis Historia) is a work by Pliny the Elder. It is one of the largest single works to have survived from the Roman Empire to the modern day and purports to cover all ancient knowledge. The work's subject area is thus not limited to what is today understood by natural history; Pliny himself defines his scope as "the natural world, or life".

History | New York City
Before 1900. The meaning of the English term "natural history" (a calque of the Latin *historia naturalis*) has narrowed progressively with time, while, by contrast, the meaning of the related term "nature" has widened (see also History below). In antiquity, "natural history" covered essentially anything connected with nature, or used materials drawn from nature, such as Pliny the Elder 's encyclopedia of this title, published circa 77 to 79 AD, which covers astronomy, geography, humans and ...
