in some cases there are different ways to interpret how to cite a specific item. The manual does state that when it offers no examples for the type of document to be cited, then you should find the closest example and use it to build your citation, which is what we have done with this guide (see p. 193, para.2 for more information on this rule).

Citing business sources: APA (6th ed.)
citation guide ...

APA Referencing Basics: In-Text
Citation In-text references must be included following the use of a quote or paraphrase taken from another piece of work. In-text citations are citations within the main body of the text and refer to a direct quote or paraphrase. They correspond to a reference in the main reference list.

An APA in-text citation includes only three items: the last name (s) of the author (s), the year the source was published, and sometimes the page or location of the information.

References include more information such as the name of the author (s), the year the source was published, the full title of the source, and the URL or page range.
