Aurora, the sequel to Andreas Christensen's Exodus, is a book that could have been intriguing, that could have been thought-provoking, that could have been entertaining, had the author done some research. As it stands, it is far too implausible to take seriously. There's also the problem that the choice of plot and conflict is misguided.

Aurora (Exodus Trilogy, #2) by Andreas Christensen

What are the chances of the Exodus reaching Aurora? Andreas Christensen writes a compelling read with scripts akin to any high class screenwriter. Wow!!!!!! What a journey! Read more. Report abuse. See all reviews. Customers who read this book also read. Page 1 of 1 Start over Page 1 of 1 .

Aurora by Andreas Christensen, Paperback | Barnes & Noble®

As with Exodus, the first installment, Mr. Christensen does a very good job of keep it clean, exciting, moving but not too fast and he brings the main characters to the forefront of the story in proper fashion. He also writes out some key characters out of the story at times that I thought could not happen....but it worked nicely.

The Complete Exodus Trilogy by Andreas Christensen ...

The author, Andreas Christensen, didn't need to overwhelm the reader with heaps of technical jargon to tell his story, and the story flows better because of it. However, Exodus is a dystopian novel about the decisions made when a killer asteroid enters the Solar System and threatens all life on planet Earth.

Exodus (Exodus Trilogy, #1) by Andreas Christensen

Andreas Christensen is a Norwegian science fiction and fantasy writer. His most recent work is Frostfall, the first book in the epic fantasy series The Aborean Chronicles. His popular science fiction series the Exodus Trilogy received rave reviews in both the U.S. and the U.K. and has been compared to classics such as Heinlein and Asimov.

Accolades for Exodus: "Wow! I was truly impressed by this book. I love when science fiction writers combine science, politics and psychology. For me the mix was just right" "This book is science fiction in great form. It doesn't just make you think about the future, it really makes you think about the world around you today" When mankind faces extinction, how can anyone survive? In 2072, Earth faces the ultimate extinction event. In an America turned authoritarian, a race against time begins. To send a starship to a distant planet, where the remains of humanity can survive. Only a small number will be chosen for this final endeavor to save mankind from extinction, and among the contenders only the most resourceful will have a chance. But while the government wants to choose loyal subjects in order to create another version of the society they have engineered, there are those who secretly conspire to let the starfarers choose their own destiny, free from the bonds of their mother world. As mankind on Earth faces its final blow, the selected few set course for Aurora, more than 40 light years away! Follow Tina Hammer, scramjet pilot and officer, Kenneth

Taylor, Harvard professor and alienated by the nation he once held so dear, Maria Solis, daughter to one of the richest men in the world, a girl who would never have been chosen, except for her dad's money, on their various paths toward the greatest adventure in human history. "A race through the end of the Earth - excellent SF" "Very well written and reads fast and easy in the style of other great sci fi writers such as Randolph Lalonde and Jack Campbell"

This is the complete omnibus edition of the Exodus Trilogy, which has captivated readers all over the world. When an object from space threatens, it becomes clear that humanity needs to reach for the stars in order to survive. With just a few years warning, a race against time begins; to send a starship to a distant planet, where the remains of humanity can survive. Only a small number will be chosen, and among the contenders no one but the most resourceful will stand a chance. In an America turned authoritarian, a small group of dissidents draw up their plans to change not this world, but the next. The confrontation seems inevitable, but who will prevail, and at what cost? A world divided make their separate plans. In desperate times, humanity will show it's darker side, and even the best of intentions can result in the worst of outcomes. Will human ability for compassion and unity rise up, or succumb to fear and ruthlessness under pressure? And when the starship Exodus leaves for distant Aurora, more than 40 light years away, nobody expects this journey to end up answering some of humanity's greatest and oldest questions: Who are we? Are we alone? Where do we come from? This omnibus edition contains the complete Exodus

Trilogy. 1. Exodus 2. Aurora 3. Genesis

Legio Patria Nostra (Lat.) The Legion is our Fatherland. Eighteen years ago they came to destroy us... A race of conquerors from deep space had set their eyes on Earth's riches. Their invasion slaughtered billions. But humanity united under a common leadership and fought back. We chased them off Earth and most of the Solar System. The war still rages on, and every year young people are sent out to die, far away from Earth. Ethan Wang was born on the day of the invasion, during the chaos and turmoil of war and now he's ready to join the fight. But first he has to become a soldier, and survive his initiation into one of the toughest military units Earth ever mustered: the Ghost Legion. With Ghost Legion, Andreas Christensen kicks off the Legionnaire Series, a military science fiction set in the near future. Suit up, and get ready for a roller coaster ride into space!

RIFT - The new dystopian trilogy book 1 from the author of the Exodus Trilogy. The RIFT Saga begins here. In the ruins of what was once North America lies the Covenant, a nation forged by the iron will of the Moon people, who descended from their dusty refuge on the Moon after the Fall. The Moon people are wealthy, ruled by a strong government who protects its citizens from the dangers from outside their borders. Their greatest achievement is having learned the secret of immortality, and every citizen has the opportunity to live nearly forever if they choose to, a life of riches and abundance. The English are the descendants of the original inhabitants of

Download Free Aurora Exodus Trilogy Christensen Andreas

this place, and they live very different lives from that of the Moon people. They only live to serve the greater good, and citizenship is something few have the opportunity to earn. At the age of fifty all non-citizens are subjected to mandatory euthanasia. In order to maintain a sustainable society, they are told. Every year a number of girls and boys at the age of eighteen are selected for Service to the State. The brightest and most talented are sent to become Students. The strong, the fighters and the athletes become Janissaries, a band of soldiers protecting the northern border from the enemies of the Covenant. The Wardens, a secretive organization known to operate far to the west, near the Rift, which makes up the border to the wastelands, sometimes chooses one or two initiates, but nobody knows what becomes of them. And then there is the Corpus, where the whip rules and backs are bent. Those who complete their Service, may become citizens. And although they will never be equal to the Moon people, they will have access to all the riches and opportunities granted by the Covenant leadership to its citizens. As Sue is nearing Selection Day, she secretly hopes to be chosen, despite having to leave her mother and brother behind. She doesn't crave glory or wealth though. A man or woman with citizen status can do a lot of good, and although few return to their home towns, Sue hopes to return to give her family a better life on the other side of Service. But the Covenant is rotten to the core, and as she begins to learn its secrets, Sue must question everything she has always taken for granted. Soon she will find herself in dire peril, for she has seen the truth and there will be no turning back after that... This science fiction dystopian trilogy is set more than two centuries after the events of Exodus, in a future

Download Free Aurora Exodus Trilogy Christensen Andreas

dystopian society forged from the ashes of global disaster. "Mr. Christensen has absolutely found his genre, and I hope he keeps the stories coming!"

On Aurora, humanity's final outpost is heading for disaster. In 2080, the starship Exodus left Earth, carrying some 1600 people, to give humanity a second chance. Now, in 2245, the colonists are trying to build a future on distant Aurora. But the doomed world that sent them on their long voyage had turned authoritarian and repressive, leading a small group to form a plan to let those sent on the Exodus choose a different path. While Kenneth Taylor struggles to accept his self-imposed silence even on the new world, Thomas Dunn is slowly subverting the colonial administration. Governor George Havelar, on the other hand, plans to make sure the mistakes of the past are not repeated as he proposes a radical plan for human expansion. In the north a simmering discontent is threatening to break up the unity of the human settlement on Aurora, and former scramjet pilot Tina Hammer realizes she cannot stay out of the conflict. Maria Solis, torn between loyalty to her father's faction and her own desires, is suddenly being forced into the conflict as she witnesses a terrible crime. With an entire planet to discover, tensions rise as opposing forces work their plans. While the leadership of the colony tries to affirm its control, others are working to regain lost liberties. Will humanity's final outpost survive the confrontation, or succumb to destruction? Aurora is the second installment of the Exodus Trilogy.

Download Free Aurora Exodus Trilogy Christensen Andreas

From the author of the Exodus Trilogy comes a bleak vision of life after the end. When the world ends, what do you do when you realize you are still alive? In a world devastated by natural disaster, only the most stubborn refuse to lay down and die. But with dwindling resources, time is running out. When Ed Walker learns that others have been preparing for the disaster for years, he begins to realize finding them may be his only shot at survival. In a dying world one man makes a choice to keep going, hoping against all odds there might be a future after all. Alive is a 10.000 word story loosely based on events in Exodus, but can also be read as a stand alone

NASA discovered the alien ship lurking in the asteroid belt in the 1960s. They kept the Target under intense surveillance for decades, letting the public believe they were exploring the solar system, while they worked feverishly to refine the technology needed to reach it.

On Aurora, a people divided braces for the final confrontation. Aurora, the final destination of the starship Exodus, has become the scene of a deadly struggle between opposing forces, ready to fight with any means available. The rebels have found a leader in former Harvard Professor Kenneth Taylor, who with the help of former scramjet pilot Tina Hammer, has vowed to fight the injustices of the past and regain lost liberties. Governor George Havelar once had a plan for Aurora, but the rebels are now threatening its unraveling. As he rallies his forces to move against the rebels, events take a surprising turn, and he is forced to reconsider his options.

Download Free Aurora Exodus Trilogy Christensen Andreas

Meanwhile, Thomas Dunn is fighting a guerrilla war in the hills and forests, and so far, the rebels have kept the enemy at bay. As winter draws to a close, an overwhelming force is coming north to end the war once and for all. But everything changes when the enemy's attack turns to frantic retreat. Benjamin Waters, once a boy soldier caught up in the turmoil of rebellion, has found himself developing amazing abilities, but the ghosts of his past are slowly creeping up on him. Will he find redemption, or will he lose himself to the parasite infesting his very soul? When Maria Solis is searching for a way to expand further north, she makes a discovery that changes everything. But little does she know that the answer to an even greater mystery, which has eluded sages and scientists for thousands of years, will soon be revealed. It is time for the explosive conclusion to the saga that began with the appearance of a rogue planet threatening humanity's existence. Will this be the final chapter of humans on Aurora, or a new beginning?

Accolades for Exodus: "Wow! I was truly impressed by this book. I love when science fiction writers combine science, politics and psychology. For me the mix was just right" "This book is science fiction in great form. It doesn't just make you think about the future, it really makes you think about the world around you today" "When mankind faces extinction, how can anyone survive? Exodus is the first installment of the Exodus Trilogy. "A race through the end of the Earth - excellent SF" "Very well written and reads fast and easy in the style of other great sci fi writers such as Randolph Lalande and Jack Campbell"

From 9/11 to Charlie Hebdo along with Sony-pocalypse and DARPA's \$2 million Cyber Grand Challenge, this book examines counterterrorism and cyber security history, strategies and technologies from a thought-provoking approach that encompasses personal experiences, investigative journalism, historical and current events, ideas from thought leaders and the make-believe of Hollywood such as 24, Homeland and The Americans. President Barack Obama also said in his 2015 State of the Union address, "We are making sure our government integrates intelligence to combat cyber threats, just as we have done to combat terrorism. In this new edition,
