and Van Ryzin ' s innovative, standard-setting text is imbued with a deep commitment to making social and policy research methods accessible and meaningful. Research Methods in Practice: Strategies for Description and Causation motivates readers to examine the logic and limits of social science research from academic journals and government reports. A central theme of causation versus description runs through the text, emphasizing the idea that causal research is essential to understanding the origins of social problems and their potential solutions. Readers will find excitement in the research experience as the best hope for improving the world in which we live, while also acknowledging the trade-offs and uncertainties in real-world research.

the hidden assumptions that often underlie popular statements about school reform, and demonstrate how misinformation or half-truths have been used to reshape public education in ways that serve the interests of private enterprise.

Through a thoughtful series of essays that each identify one “ lie “ about popular school reform initiatives, the authors of this collection reveal the concrete impacts of these falsehoods—from directing funding to shaping curricula to defining student achievement. Luminary contributors including Deborah Meier, Jeannie Oakes, Gloria Ladson-Billings, and Jim Cummins explain how reform movements affect teachers and administrators, and how widely-accepted mistruths can hinder genuine efforts to keep public
