The 757 (designated "7N7" during initial development) was designed by Boeing to complement the Boeing 767 on less dense routes. Originally conceived as the Boeing 727-300, a stretched variant over the 727-200, the 757 was a newer design. Original designs of this plane featured a "T-tail" as the Boeing 727 but a conventional tail was ultimately adopted. Jet Charter for Business People

The Boeing 757 is an American narrow-body airliner that was designed and built by Boeing Commercial Airplanes. The then-named 7N7, a twinjet successor for the 727 (a trijet), received its first orders in August 1978. The prototype completed its maiden flight on February 19, 1982 and it was FAA certified on December 21, 1982.
