This book is one of the classic book of all time.

Spontaneous talks given by the author in Gautama the Buddha Auditorium, Pune, India.

The book describes a fundamentally new approach to software dependability, considering a software system as an ever-changing system due to changes in service objectives, users ' requirements, standards and regulations, and to advances in technology. Such a system is viewed as an Open System since its functions, structures, and boundaries are constantly changing. Thus, the approach to dependability is called Open Systems Dependability. The DEOS technology realizes Open Systems Dependability. It puts more emphasis on stakeholders ' agreement and accountability achievement for business/service continuity than in elemental technologies.

This remarkable novel is about the effects of a new communications technology, Air, that works without power lines or machines. As pervasive technology ensures the rapid spread of pop culture and information access, few corners of the planet remain untouched. One of those few is Kizuldah, Karzistan - a tiny rice-farming village, predominantly Chinese Buddhist but with a strong Muslim presence, among whom sharply intelligent though illiterate Mae Chung, a self-styled fashion expert guiding the village women in dress, make-up and hairstyling, is an informal leader. When the UN decides to test the radical new technology Air, Mae is boiling laundry and chatting with elderly Mrs Tung. The massive surge of Air energy swamps them, and when the test is finished, Mrs Tung is dead, and Mae has absorbed her 90 years of memories. Rocked by the unexpected deaths and disorientation, the UN delays fully implementing Air, but Mae sees at once that her way of life is ending. Half-mad, struggling with information overload, the resentment of much of the village, and a complex family situation, she works fiercely to learn what she needs to ride the tiger of change.

There's nothing Maddie loves more than fabulous vintage clothes, but the visions she gets while touching them are starting to wear her down. Even so, when a beautifully dressed girl comes to Vintage Magic in search of her past, Maddie isn't about to turn her away, especially since she bears a striking resemblance to her good friend Dolly Sweet. When Maddie touches Paisley Skye's exquisitely crafted child's cloak, the vision she receives is of the ugliest sort: a decades-old case of kidnapping and murder. To give herself more time to investigate, Maddie enlists the help of her FBI Agent boyfriend Nick and takes Paisley into her home. But when Dolly suddenly skips town, Maddie realizes that uncovering the folds of Paisley's past will reveal more than one vintage crime...

SWAT-clad FBI agents stormed into Mike "Thomas Paine" Moore's home and terrorized his wife and young children at gunpoint after rousting them out of bed. Not once, but twice, pointing automatic weapons at the family. Historic, costly blunders for the FBI. In response Paine assembled his journalism crew of former feds, launched True Pundit and literally dismantled the FBI in less than two years with pens and laptops while working from home, often in pajamas. While the mainstream media ignored a corrupt FBI & DOJ, Paine and cohorts hammered away and knocked the FBI off its trusted public mantle. Revered FBI leaders were fired. Others quit. FBI officials, targeted by True Pundit's hard-hitting reporting, are now targets of numerous federal investigations. A fitting irony after the FBI -- whom Paine worked for -- came into his home with M4 rifles drawn on his young kids and wife. Twice. Then, the FBI went on a rampage to ruin his Fortune 100 career at Citi and even prevented him from attending his mother's funeral. What did Paine know that terrified the Deep State and prompted FBI agents to stoop so low as to literally terrorize an 8-year-old and 12-year-old? And Paine's wife? Paine tells it all here -- revealing he was investigating intel that the FBI, CIA & White House were covering up evidence that Osama bin Laden was living and running al-Qaeda from Iran after 9/11. Paine reveals his True Identity: Loeb Award-winning & Pulitzer nominated newspaper reporter and Intel expert Mike Moore. And his insider revelations about bin Laden -- and the Bush and Obama White Houses -- are not pretty as they blow the roof off one of the most sinister, gut-wrenching scandals in U.S. history, involving Democrats and Republicans. Implicated too here are U.S. Special Counsel Robert Mueller along with former CIA Director John Brennan, among many others. A Criminal conspiracy involving top players in the Deep State, entrenched in one of the greatest public betrayals imaginable. They tried to silence Paine and ruin him to keep these alarming revelations secret but something went wrong. Paine rose from the ashes of his battered life and tattered financial career and then re-launched his award-winning journalism career. And this time -- playing by his own rules -- Paine blows the lid off of a massive cover-up that implicates the same D.C. elite who tried to take him down. Mike "Thomas Paine" Moore's story is one of personal loss, struggle, payback and patriotism. You may have heard the prophetic warning that "One Day You're Going to Mess with the Wrong Guy." In "How We Dismantled the FBI in Our Pajamas," Paine proves he is THAT guy. And the FBI -- or what's left of it now -- surely regrets the days it threatened Paine's wife and children at gunpoint, miscalculations that ultimately rocked its foundations unlike any FBI scandal in American history.

This book presents integrative models of play therapy that incorporate expressive arts and evidence-informed interventions when working with preadolescents from a play-based context. It covers play therapy with preadolescents, integrating expressive arts like music, movement, play, sand, and poetry into treatment, along with familial involvement.

The Unquenchable Worshipper issues a passionate call for a return to an unadulterated, first-love lifestyle of worship. In his first book release, respected worship leader and songwriter Matt Redman writes: "The revelation of God is the fuel for the fire of our worship. And there is always more fuel for the fire. When we open the eyes of our heart, God ' s revelation comes flying at us from so many different angles." Open the eyes of your heart and let the gut-level message of The Unquenchable Worshipper cause you, like martyred missionary Jim Elliot, to say, "Saturate me with the oil of Thy Spirit, that I may be aflame. Make me Thy fuel O flame of God." It ' s time to dive into the heart of worship—will you take the plunge?

Bugs Rule! provides a lively introduction to the biology and natural history of insects and their noninsect cousins, such as spiders, scorpions, and centipedes. This richly illustrated textbook features more than 830 color photos, a concise overview of the basics of entomology, and numerous sidebars that highlight and explain key points. Detailed chapters cover each of the major insect groups, describing their physiology, behaviors, feeding habits, reproduction, human interactions, and more. Ideal for nonscience majors and anyone seeking to learn more about insects and their arthropod relatives, Bugs Rule! offers a one-of-a-kind gateway into the world of these amazing creatures. Places a greater emphasis on natural history than standard textbooks on the subject Covers the biology and natural history of all the insect orders Provides a thorough review of the noninsect arthropods, such as spiders, scorpions, centipedes, millipedes, and crustaceans Features more than 830 color photos Highlights the importance of insects and other arthropods, including their impact on human society An online illustration package is available to professors

Federal household surveys today face several significant challenges including: increasing costs of data collection, declining response rates, perceptions of increasing response burden, inadequate timeliness of estimates, discrepant estimates of key indicators, inefficient and considerable duplication of some survey content, and instances of gaps in needed research and analysis. The Workshop on the Future of Federal Household Surveys, held at the request of the U.S. Census Bureau, was designed to address the increasing concern among many members of the federal statistical system that federal household data collections in their current form are unsustainable. The workshop brought together leaders in the statistical community to discuss opportunities for enhancing the relevance, quality, and cost-effectiveness of household surveys sponsored by the federal statistical system. The Future of Federal Household Surveys is a factual summary of the presentations and related discussions that transpired during the workshop. This summary includes a number of solutions that range from methodological approaches, such as the use of administrative data, to emphasis on interagency cooperative efforts.
