"In The Swifts, Walker Rumble, himself a printer and printing historian, follows the trail of these colorful compositors who became famous by winning typesetting races. Tellingly, at the same time that the most celebrated contests were taking place, technological and cultural forces were threatening the Swifts' way of life. First, women printers vied for shopfloor legitimacy; then, in the mid-1880s, typesetting machines such as Mergenthaler's Linotype arrived, replacing the artisans forever."--BOOK JACKET.
