Answers What does the 10Base5 stand for? In 10Base5 architecture, 10 stands for speed, Base stands for Baseband transmission and 5 stands for 500 meters distance. Which standards are used in Gigabit Ethernet?

*Networking Interview Questions and Answers*  
Windows Networking Interview Questions With Answers What is the computer network? A computer network is basically a group of computers which are connected together to share information and save physical resources. What is a host in computer network?

*Windows Networking Interview Questions With Answers*

a. 256. b. 255. c. 254. d. 258. Answer: c. 254. The number of addresses usable for addressing specific hosts in each network is always  $2^N - 2$  (where N is the number of rest field bits, and the subtraction of 2 adjusts for the use of the all-bits-zero host portion for network address and the all-bits-one host portion as a broadcast address. Thus, for a Class C address with 8 bits available in the host field, the number of hosts is 254.
