Under the label of "the socialist market economy with Chinese characteristics," the Chinese Government has made a firm commitment to economic reform, though still retaining tight political control. Thus, under conditions of liberal economic systems and autocratic rule, a new capitalist system is emerging in China; its top companies are managed by private entrepreneurs, government bodies or a combination of both. This book, presented in an easily accessible format, fills an important gap in the growing literature on China in the global economy and provides a research reference tool on China's top companies. It

contains a comprehensive directory listing of the Top 100 corporations in China, thus enhancing the research potential on China for students, researchers and businesses is alike. As a general reference guide to the Chinese economy, A Guide to the Top 100 Companies in China provides up-to-date and comprehensive coverage of the top Chinese enterprises. Corporations from Hong Kong and Taiwan that conduct significant business in China are also included.

This book provides comprehensive coverage of mobile

data networking and mobile communications under a single cover for diverse audiences including managers, practicing engineers, and students who need to understand this industry. In the last two decades, many books have been written on the subject of wireless communications and networking. However, mobile data networking and mobile communications were not fully addressed in a unified fashion. This book fills that gap in the literature and is written to provide essentials of wireless communications and wireless networking, including Wireless Personal Area Networks (WPAN), Wireless Local Area Networks (WLAN), and Wireless Wide Area Networks (WWAN). The first ten chapters of the book

focus on the fundamentals that are required to study mobile data networking and mobile communications. Numerous solved examples have been included to show applications of theoretical concepts. In addition, unsolved problems are given at the end of each chapter for practice. (A solutions manual will be available.) After introducing fundamental concepts, the book focuses on mobile networking aspects. Four chapters are devoted on the discussion of WPAN, WLAN, WWAN, and internetworking between WLAN and WWAN. Remaining seven chapters deal with other aspects of mobile communications such as mobility management, security, cellular network planning, and 4G systems. A unique feature of this

book that is missing in most of the available books on wireless communications and networking is a balance between the theoretical and practical concepts.

Moreover, this book can be used to teach a one/two semester course in mobile data networking and mobile communications to ECE and CS students.

*Details the essentials of Wireless Personal Area Networks(WPAN), Wireless Local Are Networks (WLAN), and Wireless Wide Area Networks (WWAN)

*Comprehensive and up-to-date coverage including the latest in standards and 4G technology *Suitable

for classroom use in senior/first year grad level courses. Solutions manual and other instructor support available

- The first book to explain how feng shui developed from the Taoist systems of astrology, yin and yang, and the five elements.
- Provides a background on Taoist philosophy to help readers better understand the principles of feng shui and how to use them properly.
- Helps readers improve home, business, garden, property, neighborhoods, and much more.

The Chinese art of feng shui has become extremely popular in the West, but too often advice on the subject consists of overly simplistic instructions for rearranging one's house without any explanation of the profound philosophical system behind these changes. The ancient Taoists developed feng shui

from their understanding of the subtle interplay of energies that make up the universe, and no true mastery of feng shui is possible without a knowledge of Taoism. Taoist Feng Shui provides step-by-step guidelines for improving your home, business, garden, property, and neighborhood using this ancient system of knowledge. In Taoist Feng Shui, Susan Levitt traces the history of feng shui and shows how it is grounded in knowledge of yin and yang and the five Taoist elements of fire, earth, metal, water, and wood, as well as many other principles essential to Taoism. Once a background in Taoism is established, readers can better understand the philosophy behind concepts such as choosing the best colors for each

With in-depth examples from the author's private feng shui practice, Taoist Feng Shui can help all readers transform their personal environments to create peace, harmony, health, wealth, and good fortune.

A luminous memoir about how friendship saved one woman's life, for anyone who has loved a friend who was sick, grieving, or lost--and for anyone who has struggled to seek or accept help Eva Hagberg Fisher

spent her lonely youth looking everywhere for connection: drugs, alcohol, therapists, boyfriends, girlfriends. Sometimes she found it, but always temporarily. Then, at age thirty, an undiscovered mass in her brain ruptured. So did her life. A brain surgery marked only the beginning of a long journey, and when her illness hit a critical stage, it forced her to finally admit the long-suppressed truth: she was vulnerable, she needed help, and she longed to grow. She needed true friendship for the first time. How to Be Loved is the story of how an isolated person's life was ripped apart only to be gently stitched back together through friendship, and the recovery--of many stripes--that came along the way. It explores

the isolation so many of us feel despite living in an age of constant connectivity; how our ambitions sometimes pull us apart more than bring us together; and how a simple doughnut, delivered by a caring soul, can become the essence of what makes a life valuable. With gorgeous prose shot through with empathy, pain, fear, and the secret truths inside all of us, Eva writes about the friends who taught her to grow up and open her heart--and how the relentlessness of suffering can give rise to the greatest joy.
