Thoroughly revised and updated for its Fifth Edition with the help of Doctors in Training.com, LLC, Step-Up to USMLE Step 1 is the most effective comprehensive systems-based review for the USMLE Step 1 exam. The book has been widely acclaimed for its high-yield, systems-based organization, which parallels the USMLE Step 1 content outline and helps students synthesize the information from their basic science courses. The popular, user-friendly format features numerous charts and diagrams and "Quick Hits" notes in the margins that help students integrate concepts across systems. In the Fifth Edition, clinical vignettes have been developed within each chapter, pharmacology has been further integrated into the systems-based format, a "Crunch Time Review" has been added, and a new chapter outlines study tips and strategies. A companion Website features fully searchable online text, a sample question bank, and more.

The content of medical education knowledge transfer is compounded as medical breakthroughs constantly impact treatment, and new diseases are discovered at an increasingly rapid pace. While much of the knowledge transfer remains unchanged throughout the generations, there are unique hallmarks to this generation's education, ranging from the impact of technology on learning formats to the use of standardized patients and virtual reality in the classroom. The Handbook of Research on the Efficacy of Training Programs and Systems in Medical Education is an essential reference source that focuses on key considerations in medical curriculum and content delivery and features new methods of knowledge and skill transfer. Featuring research on topics such as the generational workforce, medical accreditation, and professional development, this book is ideally designed for teachers, physicians, learning practitioners, IT consultants, higher education faculty, instructional designers, school administrators, researchers, academicians, and medical students seeking coverage on major and high-profile issues in medical education.
