Rapid changes such as a globally interconnected environment, the Internet, big data analytics, advances in technology, and sustainability imperatives have required businesses to adapt their standard practices. New chapters on advising administration and collaboration with other campus services A new section on perspectives on advising including those of CEOs, CAOs (chief academic officers), and CSAOs (chief student affairs officers) More emphasis on two-year colleges and the importance of research to the future of academic advising New case studies demonstrate how advising practices have been put to use.

With its abundance of step-by-step solved problems, concepts, and examples of major real-world companies, this text brings unparalleled clarity and transparency to the course.
