In this video I go over the highlights of my engine test stand. In this video I go over the highlights of my engine test stand.

Homemade Engine Test Stand - YouTube

Plus, its fun to build things. Here's what I built: I made it out of 2" square tubing with heavy 0.12" thick walls. The overall size of the base is 30" by 60". A friend donated some extra casters he had. The stand needs to be high enough so that the legs of your engine hoist will roll below.

Engine Stand Project - Laine Family

Building an engine test stand It's time for an engine test stand, so I'm going to build one. I like the larger standalone designs that are staked or weighted with cinder blocks but because my storage space is limited and I won't be using it often I wanted a more compact solution.

Building an engine test stand - RC Groups

Finished up the test stand and put my rebuilt big block Chevy on it! The stand worked great!

In this tech article HIGH PERFORMANCE PONTIAC shows you how to build an engine break-in stand without breaking your budget beginning with designing and building a solid foundation - High ...

DIY Engine Break-In Stand - How To Design And Build A ...

This also makes mounting a new engine easy as I can set it up using the drill press and workbench and then attach the assembly to the test stand as a single unit. I do still drill holes in the fixed rear plate for the throttle pushrod if necessary, but these are quite a way from the 1/4-20 fasteners in the corners that hold the sandwich together.

Build an Engine Test Stand - Fly RC Magazine

Plans for a Harley Motor Stand Posted by Mustari Brand on January 23, 2013 February 4, 2013 If you have more time and tools than cash make yourself a stand for your V-Twin before it comes out of the frame, if you don't already own one.

Plans for a Harley Motor Stand - MustariBrand

Engine Test Stand Plans - Solo Metal Works

Homemade Engine Run Stand. Raw materials as picked up from MetalSupermarkets.com. They have a reasonably local office about 15 minutes away, and the owner is really cool. Doesn't charge me for cuts as long as there aren't too many. All prices are by weight, so having them cut square tubing to size is real convenient.

Homemade Engine Run Stand - Frederic J. Breitwieser Jr.

Plan B looked like the way to go. If you're going to build one... build one that will handle anything short of a Caterpillar, Cummins or a de Havilland. While this stand certainly isn't built for the large Diesel engines... it will surely handle any normal truck/car engine you can hang on it.
