Psychology Of Personality Study Guide

Personality psychology is one of the largest and most popular branches of psychology. Professionals who study personality psychology want to understand how personality develops as well as how it influences the way we think and behave. Psychologists look at how personality varies among individuals as well as how people are similar.

[This] introductory textbook examines theories of personality, starting from the viewpoint that there are eight basic aspects to personality: psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and interactionist. Later chapters apply these aspects to individual differences such as those of gender and culture. Summaries after each chapter encapsulate key theorists and concepts discussed. -<http://www.bn.com>.

Longtime Myers collaborator Richard Straub provides an updated study guide for the new edition.

Perfect for research assignments in psychology, science, and history, this concise study guide is a one-stop source for in-depth coverage of major psychological theories and the people who developed them. Consistently formatted entries typically cover the following: biographical sketch and personal data, theory outline, analysis of psychologist's place in history, summary of critical response to the theory, the theory in action, and more.

This text continues to be one of the most current, authoritative overviews of the theories and research in psychopathology and intervention. Its widely praised scientific clinical approach blends the clinical and empirical/experimental as the authors examine each disorder from multiple perspectives. The text emphasizes different paradigms with a particular emphasis on the diathesis-stress paradigm as necessary for understanding most psychopathologies.

"This book is designed to help students organize their thinking about psychology at a conceptual level. The focus on behaviour and empiricism has produced a text that is better organized, has fewer chapters, and is somewhat shorter than many of the leading books. The beginning of each section includes learning objectives; throughout the body of each section are key terms in bold followed by their definitions in italics; key takeaways, and exercises and critical thinking activities end each section"--BCcampus website.
