So startling and dramatic are these memoirs, the entire history of World War II will have to be rewritten because of them. Gehlen's revelations cannot fail to embarrass governments, cast doubts on famous leaders and causes, frighteningly underscore the fantastic power of espionage in world affairs. The Service is the memoir of General Reinhard Gehlen, legendary spymaster-in-chief, Hitler's head of military espionage in Russia who, as the war ended, transferred his mammoth files and network of spies to the service of the United States, ultimately to become chief of the official West German intelligence agency.

Awakening in a bleak landscape, Cass Dollar vaguely recalls enduring something terrible. Having no idea how many days—or weeks—have passed, she slowly realizes the horrifying truth: her daughter, Ruthie, has vanished. And with her, nearly all of civilization. Instead of winding through the once-lush hills, the roads today see only cannibalistic Beaters—people turned hungry for human flesh by a government experiment gone wrong. In a broken, barren California, Cass will undergo a harrowing quest to get Ruthie back. Few people trust an outsider—much less one who bears the telltale scars of a Beater attack—but she finds safety with an enigmatic outlaw, Smoke. And she'll need him more than ever when his ragged band of survivors learn that she and Ruthie have become the most feared, and desired, weapons in a brave new world....

We have the capability to win in the Middle East. The only question is whether we have the resolve. At the start of the Civil War, many Northerners anticipated a quick victory. The New York Times predicted victory in 30 days. By 1863, the war was being denounced in Congress as an utter, disastrous, and most bloody failure, while President Lincoln and his administration were despised for their incompetence. "There never was such a shambling, half-and-half set of incapables collected in one government, before or since the world began," a Liberal senator said in disgust. To-day President Lincoln is considered to be the best of all our Presidents. Just as then, we have to choose between resolve and retreat, with no guarantees about how it will end. All we can be sure of is that the stakes once again are liberty and decency versus tyranny and terror. We are fighting an enemy that feeds on weakness and expects us to lose heart. The world for generations to come will remember if we flinch. The aggressive measures the President took after 9/11/2001, have kept us safe. As a consequence, Liberals have the luxury and freedom of being able to hate him. History will see it differently. Liberals see a monster instead of a political opponent and multilayered issues as evil.
