TESTIMONY THE MEMOIRS OF DMITRI SHOSTAKOVICH

A wonder of the 20th century, composer Dmitri Shostakovich, tells his story to Solomon Volkov for history's record. Since the time of his death, Dmitri Shostakovich's place in the pantheon of 20th century composers has become more commanding and more celebrated, while his musical legacy, with all its wonderfully varied richness, is performed with increasing frequency throughout the world. This seemingly endless surge of interest can be attributed, at least in part, to Testimony, the powerful memoirs the ailing composer dictated to the young Russian musicologist Solomon Volkov. When Testimony was first published in the West in 1979, it became an international bestseller, and was called the "book of the

year by The Times in London. The Guardian heralded Testimony as "the most influential music book of the 20th century." Testimony offers a chance to reckon with the life and work of one of history's most lauded musical geniuses—as a man and an artist.

"Music illuminates a person and provides him with his last hope; even Stalin, a butcher, knew that." So said the Russian composer Dmitri Shostakovich, whose first compositions in the 1920s identified him as an avant-garde wunderkind. But that same singularity became a liability a decade later under the totalitarian rule of Stalin, with his unpredictable grounds for the persecution of artists. Solomon Volkov—who cowrote Shostakovich's controversial 1979 memoir,

Read Free Testimony The Memoirs Dmitri Shostakovich

Testimony describes how this lethal uncertainty affected the composer's life and work. Volkov, an authority on Soviet Russian culture, shows us the "holy fool" in Shostakovich: the truth speaker who dared to challenge the supreme powers. We see how Shostakovich struggled to remain faithful to himself in his music and how Stalin fueled that struggle: one minute banning his work, the next encouraging it. We see how some of Shostakovich's contemporaries—Mandelstam, Bulgakov, and Pasternak among them—fell victim to Stalin's manipulations and how Shostakovich barely avoided the same fate. And we see the psychological price he paid for what some perceived as self-serving aloofness and others saw as rightfully defended individuality. This is a revelatory account of the relationship between one of the twentieth

century's greatest composers and one of its most infamous tyrants.

A collection of writings analyzing the controversial 1979 posthumous memoirs of the great Russian composer at their significance. In 1979, the alleged memoirs of legendary composer Dmitry Shostakovich (1906–1975) were published as *Testimony: The Memoirs of Dmitry Shostakovich As Related to and Edited by Solomon Volkov*. Since its appearance, however, *Testimony* has been the focus of

controversy in Shostakovich studies as doubts were raised concerning its authenticity and the role of its editor, Volkov, in creating the book. A Shostakovich Casebook presents twenty-five essays, interviews, newspaper articles, and reviews—many newly available since the collapse of the Soviet Union—that review the “case” of Shostakovich. In addition to authoritatively reassessing Testimony’s genesis and reception, the authors in this book address issues of political influence on musical creativity and the role of the artist within a totalitarian society. Internationally known contributors include Richard Taruskin, Laurel E. Fay, and Irina Antonovna Shostakovich, the composer’s widow. This volume combines a balanced reconsideration of the Testimony controversy with an examination of what the controversy signifies for all music

historians, performers, and thoughtful listeners. Praise for A Shostakovich Casebook "A major event . . . This Casebook is not only about Volkov's Testimony, it is about music old and new in the 20th century, about the cultural legacy of one of that century's most extravagant social experiments, and what we have to learn from them, not only what they ought to learn from us." "Caryl Emerson, Princeton University

Establishes beyond any doubt the enormous courage of one of the giants of the age

The true story of composer Dmitri Shostakovich, who wrote a symphony that roused, rallied, eulogized, and commemorated his fellow citizens--the Leningrad Symphony, which came to

occupy a surprising place of prominence in the eventual Allied victory during World War 2.

Dmitry Shostakovich was one of the most successful composers of the twentieth century—a musician who adapted as no other to the unique pressures of his age. By turns vilified and feted by Stalin during the Great Purge, Shostakovich twice came close to succumbing to the whirlwind of political repression of his times and remained under political surveillance all his life, despite the many privileges and awards heaped upon him in old age. Through it all, Shostakovich showed a remarkable ability to work with,

rather than against, prevailing ideological demands, and it was this quality that ensured both his survival and his musical posterity. Pauline Fairclough's absorbing new biography offers a vivid portrait of Shostakovich. Featuring quotations from previously unpublished letters as well as rarely seen photographs, Fairclough's book provides fresh insight into the music and life of a composer whose legacy, above all, was to have written some of the greatest and most cherished music of the last century.
