The Manual provides step-by-step guidance to assist instructors in training policymakers and practitioners in the use of economic instruments – pollution taxes, user fees, property rights, etc, - for sustainable development in general and for environmental and natural resource management in particular. Designed as an interactive working document composed of flexible modules and exercises and providing guidance for trainers and course participants, the manual offers substantial flexibility for trainers to custom design courses that meet local needs and priorities.

This series of comprehensive manuals gives the home mechanic an in-depth look at specific areas of auto repair.

Made to Break is a history of twentieth-century technology as seen through the prism of obsolescence. Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence. This book gives us a detailed and harrowing picture of how, by choosing to support ever-shorter product lives, we may well be shortening the future of our way of life as well.
